Accessing Services

Many people have difficult times in life and may experience mental health needs. The most important thing to remember when asking yourself if you need professional help is to trust yourself.

If you are eligible for Medi-Cal, and you think you may need professional help, you should contact the toll-free **24 hour per day, 7 day per week** Access Line at (800) 929-2335 to request an assessment.

You may also be referred to the Santa Cruz County Behavioral Health in other ways. The County accepts referrals for mental health services from doctors or other primary care providers who think you may need services, and from your Medi-Cal health plan. Usually a provider will need your permission, or the permission of the parent or caregiver of a child, to make a referral, unless there is an emergency.

Other people and organizations may also make referrals to the County including schools, social service departments, conservators, guardians, family members, and law enforcement agencies.

Alternatively, if you prefer to speak with a provider directly, you may connect with them using the information found in this Provider Directory.

If your child or teenager is struggling with mental health needs, you may use the Access Line at (800) 952-2335 to discuss your concerns and arrange for an assessment.

If you or someone you know is experiencing severe or life-threatening symptoms **dial 911 immediately or go to the nearest emergency department**. Emergency services are covered by Medi-Cal 24 hours a day, 7 days a week, without requiring any authorization.
