# County of Santa Cruz SSP Program Update

SSP Advisory Commission September 14, 2021 Rahshan Williams, SSP Program Coordinator

### Current Activities – Rahshan Williams

Goal: prevent disease, link to treatment and services, improve public safety

- August 2021 SSP report and comparison to August 2020
- HIV/HCV testing
- Watsonville Exchange update
- Participant Surveys

#### The Santa Cruz County SSP Posts Data Repots Monthly @ <u>Syringe Services Program (santacruzhealth.org)</u>

- 1. Data reports reflect program usage by participants and persons who conduct secondary exchange
- 2. Data reports reflect demographics of persons using our exchanges including but not limited to:
- Area of residence
- Ethnicity
- Age group
- Housing status
- Injectable Drugs used

# Data is taken from our posted reports from this past August (2021) and August (2020)

#### We will look at

- Participant use of Santa Cruz Exchange and Watsonville Exchange
- SSP Syringe dispensation and collection via Exchanges and Kiosks
- Naloxone distribution
- Education and referrals

#### August 2021 Monthly Reporting

#### Participant usage of our Exchanges has Declined

- Participant usage of our County Exchanges has declined at both exchanges by approximately 27% when comparing Unique Client IDs from August 2020 and 2021 data
- Overall visits have declined **33%**

#### Syringes Dispensed and Collected by the Santa Cruz County SSP

- The Santa Cruz SSP only distributes syringes through our Exchanges
- Syringe Collection is conducted via Exchanges and Kiosks
- Hours of operation have not changed at our exchanges (Santa Cruz and Watsonville) since last August
- We have deployed 2 additional Kiosks since August of 2020 working with the City of Santa Cruz to decide on their locations

## Syringe distribution and collection via our exchanges has declined

- We are distributing and collecting approximately 40% of the number of syringes this year compared to last when looking at our August #s
- When comparing our Watsonville exchange in isolation the decline is less and down approximately 25% for syringe distribution and 15% syringe collection

#### Syringe disposal via Kiosk use is up

• We collected approximately **33%** more syringes via our Kiosks this August (2021) when compared to last August (2020)

### **Naloxone Distribution**

 We continue to distribute Narcan via our exchanges and act as a recourse for Narcan access and training for our community partners

| August 2021           |     |
|-----------------------|-----|
| Narcan Kits           | 110 |
| Dispensed             | 449 |
| Reversals out of      |     |
| Overdose <sup>7</sup> | 40  |
|                       |     |
|                       |     |
|                       |     |

| August 2020      |     |
|------------------|-----|
| Narcan Kits      |     |
| Dispensed        | 173 |
| Reversals out of |     |
| Overdose         | 32  |

### **Overdoses Reversed**

 Overdose reversed are reported by primary participants and do not account for the #s of reversals performed using Narcan distributed via our exchanges

## **Education and Referrals**

We have increased our efforts to engage with participants during each encounter emphasizing education on:

- overdose prevention
- Treatment for Substance use disorder
- Harm reduction

| Education Offered<br>August (2021) |  |  |  |     |     |  |
|------------------------------------|--|--|--|-----|-----|--|
| Drug Treatment                     |  |  |  | 124 | 93% |  |
| Harm Reduction<br>Education        |  |  |  | 131 | 98% |  |
| Referred to<br>Pharmacy            |  |  |  | 0   | 0%  |  |
| Medical Referral                   |  |  |  | 24  | 18% |  |
| HIV / Hep C Testing                |  |  |  | 2   | 1%  |  |
| Overdose Prevention                |  |  |  | 123 | 92% |  |
|                                    |  |  |  |     |     |  |

| Education Offered<br>(August 2020) |  |  |  |     |     |  |
|------------------------------------|--|--|--|-----|-----|--|
| Drug Treatment                     |  |  |  | 6   | 3%  |  |
| Harm Reduction<br>Education        |  |  |  | 191 | 95% |  |
| Referred to<br>Pharmacy            |  |  |  | 0   | 0%  |  |
| Medical Referral                   |  |  |  | 12  | 6%  |  |
| HIV / Hep C Testing                |  |  |  | 0   | 0%  |  |
| Overdose Prevention                |  |  |  | 152 | 76% |  |

### We are considering a format change to our data entry to better reflect the difference between education offered and referrals

- This may include the elimination of fields such as referrals to pharmacies
- This may include the medical referral field being made more specific (e.g., wound care, syringe consult)

### **HIV/HCV** testing

- We are moving our target date of October as a start for HIV/HCV testing and linkage to care to November
- We will change our Wednesday afternoon Watsonville Exchange hours from 3:30pm-4:30pm to 2:30pm-3:30pm starting in October to allow us to offer testing for HIV/HCV during the shift and access to the clinic lab for confirmatory testing

### Watsonville Exchange Construction

- We continue to operated our Watsonville exchange out of Suite A on the 1430 Freedom Blvd. Campus
- Construction should be complete, and we should be moving into the new exchange in the coming month

### Participant Surveys

- We will begin conducting Monthly participant surveys in October
- We will start with asking our participants the times they would prefer our Watsonville exchange's two additional authorized hours be added
- Other surveys may include feedback on supplies and supply kits offered, additional education desired, etc.

## Thank you very much
