 - ⇒ **Barrios Unidas for parent surveys** *(Stan tracking)*
 - ⇒ **Live Oak Resource Center** *(Stan tracking)*
 - ⇒ **Gault Elementary School teachers** *(Karen tracking)*

Special Outreach Strategies to Education and Parents/Community:

- One of the best ways to reach parents is through Education/Schools, so sponsor North and South County meetings to reach out to both (**see above**).
- Target Healthy Start Collaboratives in Watsonville and SLV, who serve as good interface between Education and Community needs (**see above**).
- **Continue to work through our clinicians to have survey information about personal/system needs from parents filled out** (eg., revised family survey that focuses on one question to parents--to increase return rate we must simplify). **This may be best way to reach parents with limited time availability!**
